ADM New Zealand Limited Feed Declaration

1 June 2020

1. Ruminant Protein Declaration

ADM products are produced and handled in facilities free of ruminant protein as defined in NZ's Biosecurity (Ruminant Protein) Regulations 1999. All facilities currently comply with NZ's Ruminant Protein Regulations.

2. Fit for Intended Purpose

ADM products are fully compliant with Ministry for Primary Industries':

- (1) Relevant import health standards
- (2) Agricultural Compounds and Veterinary Medicines (Imported Feed Commodities) Notice 2014
- (3) Clause 7 (Fitness for purpose: importation, manufacture, or sale of exempt compound) of the Agricultural Compounds and Veterinary Medicines (Exemptions and Prohibited Substances) Regulations 2011.

Where required further processing is undertaken in NZ, including screening and magnetising of Palm Kernel Expeller (PKE). Products are fit for consumption by lactating dairy cows.

3. Genetically Modified Organisms

We cannot guarantee that any of our products are GMO free.

4. Municipal Waste

To the best of our knowledge products are derived from land which has not been exposed to municipal waste or human effluent.

5. Traceability

ADM meets all of NZ's traceability import requirements. ADM has been a member of Roundtable Sustainable Palm Oil since 2007.

These products supplied by ADM are fit for feeding to dairy cows.

- Palm Kernel Expeller (PKE)
- Tapioca
- Soy Hull
- Canola Meal
- Alka Grain
- Kibbled Maize
- Distiller's Dried Grains with Soluble (DDGS)
- Cottonseed Meal
- Home N Dry (mixed only)
- Soymeal
- Corn Gluten Feed Pellets (CGFP)

Yours sincerely

Kevin Mayall
General Manager New Zealand
